

# Cyber-Safeguard Awareness Programme

**C-SAP**

*Eligible for IBF FTS Scheme & SkillsFuture*

## Thinking like your enemy....

Hackers say: "Let's hack the man, not the IT".

## Most of data breaches are caused by Humans...

- "Most serious personal data breach" in Singapore: - **The personal information of 1.5 million people were stolen in a cyberattack on SingHealth's database.** It has been established that the attackers accessed its IT system through an initial breach on a front-end work station.  
*July 2018*
- **380,000 Uber users hit in Singapore's largest data breach.** Its developers' private account on the site was compromised as a result of human carelessness. *Dec 2017*
- There was a **breach of 52 staff accounts across four local universities such as NTU, NUS, SMU & SUTD,** said the Cyber Security Agency (CSA) of Singapore and Ministry of Education (MOE). The incident was a phishing attack where staff members were directed to key in their login details on a website designed to obtain their credentials.  
*Apr 2018*
- There was an increase in all forms of cyber threats last year, with **Phishing Attacks topping the list and surging by almost 10 times,** according to the latest annual report by the Cyber Security Agency of Singapore (CSA). *Jun 2018*

We have invested so much money in cyber security. Can you guarantee we will not be hacked?

Stakeholders

Sorry. I can't.

CIO

*It is because HUMAN is the weakest link in cyber security.*

## Programme

### 1. e-Learning User Awareness

- Raise the overall **IT Security Awareness level** in the organisation based on *Key Principles of the Information Security Policies and Standards Manual* and *MAS\* Technology Risk Management Guidelines and Notices*. (\*Monetary Authority of Singapore)

### 2. User Awareness Workshop

- Demonstrate why you are a target for cyber-attacks and how attackers will seek to target you as a way to steal sensitive data or funds.
- **Illustrative case studies** will be used to bring home the urgency of cyber awareness.

## Valued-Added Services\*

### Simulated Ethical Phishing Attack

- Assess the effectiveness of your company's cyber security outreach programme.
- Develop and conduct **tailored** phishing exercises on **different scenarios** (*Click-Only, Attachment-Based, Data Entry, etc*).
- Provide full analytics report and recommendations to benchmark your performance against other organisations.

### Security Incident Updates

- Latest updates on Cyber Security Alert from:
  - **industries** (*Ransomware, New Vulnerabilities, etc.*)
  - **government agencies** (*Monetary Authority of Singapore, Cyber Security Agency of Singapore, Ministry of Health, etc.*)

***"If you spend more on coffee than on IT security, you will be hacked.  
What's more, you deserve to be hacked."*** Richard A Clarke

*- former National Coordinator for Security, Infrastructure Protection and Counter-terrorism for the United States.*

# Cyber-Safeguard Awareness Programme (C-SAP)

## *What if data is breached...?*

1. An organisation or person that commits an offence under section 51(3)(b) or (c) of the **Personal Data Protection Act** is liable to:
  - in the case of an individual, to a fine not exceeding \$10,000 or to imprisonment for a term not exceeding 12 months or to both; and
  - in any other case, to a fine not exceeding \$100,000.

Under the Act, organisations that fail to protect consumers' personal data can be fined **up to \$1 million per breach.**

Reference: <https://www.pdpc.gov.sg/Organisations/Enforcement-Matters/Personal-Data-Protection-Breaches>

2. Non compliance to the **MAS Technology Risk Management Notice** can result in:
  - Financial Penalties.
  - Reputational Damage.
  - Revocation of licence to operate in Singapore.
